## Vision

Effegi Vision part of Effegi Service Group

Revolutionize your production with the power of artificial vision. Our machines see the invisible, analyze the imperceptible, and deliver uncompromising precision. Today, the future of quality control is shifting from your eyes to ours.

-PRECISION AND EFFICIENCY FOR YOUR PRODUCTION-

The KWS-100 Vision Machine is designed to ensure unparalleled quality control, reducing production errors and optimizing timelines. Perfect for sectors such as BEVERAGE, PHARMACEUTICAL, and many others, it offers a cutting-edge solution for real-time monitoring and inspection of every aspect of production.

# We value your production without compromise.

# KWS-100

## Key points

EFFEGIVISION  
HIGH PERFORMANCE VIEW

EFFEGIVISION  
HIGH PERFORMANCE VIEW

### Key points

- ✦ **Increase efficiency:** Increased productivity by eliminating manufacturing defects.
- ✦ **Reducing waste:** High precision to prevent waste and rework.
- ✦ **Real-time monitoring:** Continuous control with the possibility to analyze data for future improvements.
- ✦ **Decreasing costs:** Optimization of human and material resources.

### KWS-100 Standard

- ✓ 1 camera 5 mega pixel
- ✓ 1 lighting unit RGBW
- ✓ Automated format change
- ✓ HMI Touch-screen 15 inches
- ✓ Software Matrox design
- ✓ Painted sheet metal electrical panel (optional steel)

# KWS Series Features

**KWS-100CL**

✚ Cap and level control

**KWS-100 LA**

✚ Collar and cap control

**KWS-100 L**

✚ Label control

**KWS-200 CLL**

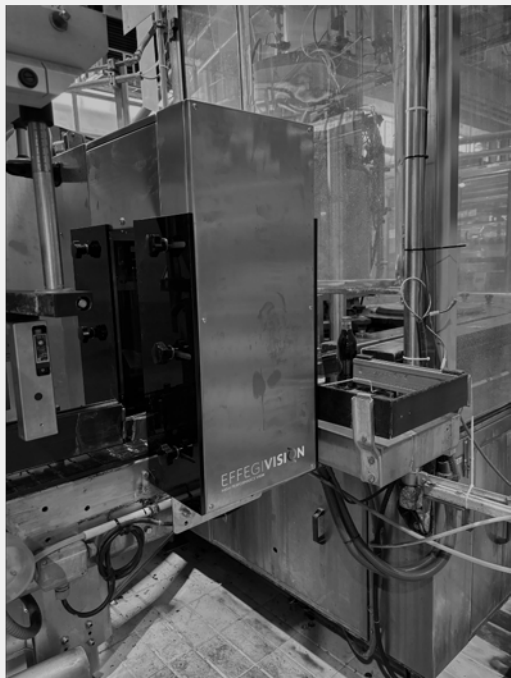

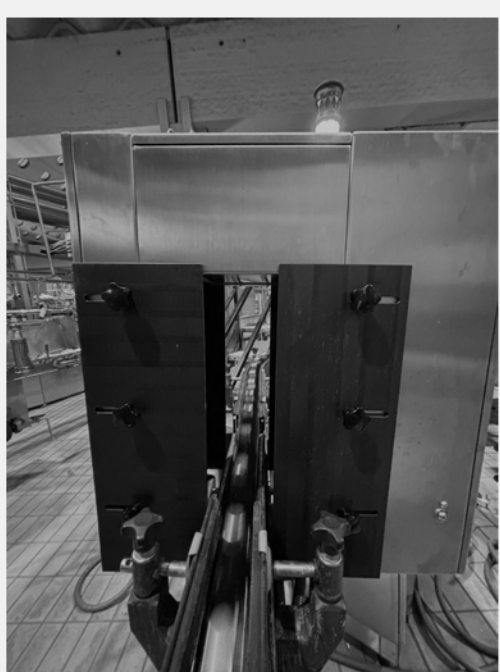

✚ Cap/level and label control

**KWS-200 CLC**

✚ Cap/level and logo/cap color control
